KEEP YOUR RECORDS

In Google Chrome, choose Download > With your changes.
Use the viewer's Download, not Print or Save page as.
Reopen that saved PDF to restore your name and personal bests.
Score and combo bests are independent. Top 100 players by score.
Do not use Print to PDF: it does not preserve the interactive game.

HOW TO PLAY

Designed for Google Chrome's built-in PDF viewer.

01 PULL AND RELEASE

Drag on the playfield, then release to launch in the opposite direction.
Follow the dots. Pull distance does not change travel distance.

02 BANK SHOTS AND COMBOS

Defeat several enemies in one shot. Bank off walls for extra points.
100, 150, 200... up to 400 points per kill. Each shot resets the bonus.

03 COLLECT A BOOST

Fill the boost bar: every 7th kill drops a boost. Drops do not expire.
Recover peak speed, then x1.5: x1.5, x2.25, x3.375...
Travel extends. The next shot starts at normal speed.

04 WATCH THE CLOCK

You have 30 seconds. Contact with an enemy costs 3 seconds.
Yellow at 15s. Background count at 10s. Red flashes at 5s.

05 NAME YOUR RUN

Enter your name above START RUN. Leave it blank to play as guest.
Up to 16 characters. Your saved name is used next time.
See page 2 for personal bests and instructions on saving your PDF.

QUIT OR RETURN LATER

Select QUIT to end the run and record its score.
Quitting waits for active hit effects. It cannot be undone.
Switching pages pauses automatically. Return and select RESUME.
